

HELP WANTED?

2006 Educator Externship Summer Program

Looking for assistance from qualified, dependable and energetic individuals? We know a few good teachers that can help. The Educator Externship Program impacts workforce development as teachers make connections between classroom instruction and workforce needs. This program is designed to bring business and education together for the benefit of all students and employers in our area.

Local area teachers will provide your company with an extra pair of professional hands for one week.

You are invited to host a teacher and help bring valuable business insight to these teachers and their students. Math, Science, and English teachers are available for placement. This is an excellent opportunity to provide a real-world experience for a classroom teacher and to demonstrate how your employees use academic skills in their daily work.

This is a vital program that cannot be conducted without your support. The dates for this event will be scheduled between **June 26 and July 28, 2006** depending on your availability.

**For further information please contact James A. Valdez at (915) 780-6501 or jvaldez@esc19.net.
You can also visit us at www.careersprep.com.**

**If your business is interested in participating, please fill out this form
as soon as possible and fax or mail it to:**

James A. Valdez, Consortium Director

Fax: (915) 780-6507
