WHAT IS TRUE COLORS?

Since the beginning of time mankind has been trying to answer one mind boggling question:

WHAT MAKES PEOPLE TICK?

The True Colors system translates complicated personality and learning theory into a fun and easy-to-use tool that is accessible to everyone.

The True Colors concept presented in this workshop will begin to clear away the haze and help you better understand students, administrators and parents. You will see and hear how you are viewed by others, and will begin to identify and appreciate the differences in those around you. Perhaps most important, you will discover how to better understand yourself and your relationships.

Learning styles associated with True Colors can bring a positive outlook on students' education and help gain valuable people skills they can use for whatever career they choose.
